DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 6/29/05 have been fully considered but they are not persuasive. Claim 6 was rejected under 102(e) as being anticipated by Munjal. The basis of the rejection is that a prior art processor, such as that disclosed by Munjal, is capable of being programmed to perform the method of claim 1. The amendment to claim 6 to positively recite the steps of the method of claim 1 does not overcome the rejection, as the processor of Munjal is still considered to be capable of performing the recited steps. The rejection is maintained.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Munjal U.S. Patent 5,936,605.

Regarding claim 6, Munjal discloses an arrangement for decoding a predetermined code word comprising a processor having a CPU 62, memory 64, an input/output interface and a data bus, as shown in Figure 2, where the processor is considered to be capable of being programmed to carry out the recited steps.

Allowable Subject Matter

4. Claims 1-5 are allowed.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
